## **DETAILED ACTION**

### ***Specification***

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Lare (US # 5,193,629). Lare discloses a counting scale that adjusts the upper and lower weight limits into smaller and smaller increments of the quotient as the number N of items being weighed increases (step "a"). See column 10 line 19 to column 11, line 41.

### ***Conclusion***

4. Claims 5-10 and 12-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The apparatus of Lare is not

well suited for a snack foods packaging line complete with conveyors and vacuum heads.
